#### Clearance Updates from Quảng Trị and Quảng Bình Provinces

**PeaceTrees' EOD technicians have had a productive spring so far! In the month of April our teams safely removed 520 explosive remnants of war and cleared 603,205 square meters of land in Quảng Trị Province.**

**In Quảng Bình, from January to April of this year, EOD teams have safely removed 3,211 explosive remnants of war and cleared over 1,443,427 square meters of land.** PeaceTrees teams have also prioritized delivering explosive ordnance risk education (EORE) to local communities, which helps residents identify explosive bombs and mines and teaches them what to do if they encounter an explosive ordnance (EO). We are so grateful for the dedication and hard work of our demining staff and for the communities we work with.

### **Members of the U.S. Embassy and Department of State Visit PeaceTrees in Vietnam**

This month, PeaceTrees was honored to welcome a delegation from the U.S. Embassy in Hanoi and the U.S. Department of State. The delegation visited our projects in Quảng Trị and Quảng Bình Provinces to spend time in the field with our EOD technicians and program staff, view a controlled detonation of explosives, and plant trees at the Danaan Parry Landmine Education Center. We would like to warmly thank everyone who joined the delegation!

PeaceTrees is incredibly grateful for the continued support of our American and Vietnamese governmental partners. As international travel continues to increase, we look forward to more opportunities to facilitate diplomacy and strengthen relationships between the U.S. and Vietnam.
